

## Professional Development Program to Enhance Productivity for Educators and Future Teachers

**About Our Company:** Istruzione Edutech Services Private Limited (under its brand name EDIMPACT) is an education technology company registered in the USA and India. We devise unique learning programs that use the latest technology. The objective of the company is to make education accessible to all, by delivering knowledge in a simple and affordable manner. The company is running its projects in several states in India. We have our official presence in Delhi, Mumbai, Chennai, Ranchi & Patna. But our presence is pan India, the company has achieved great accomplishments ever since its inception a few years ago, under the able guidance of its Founder & Director Mr. Santosh Srivastava, a visionary person, especially in the field of Digital literacy and Women Empowerment.

### WHY DIGITAL KSHAMTA

For Educators and Future Teachers, we are providing professional training on Microsoft Office 365 which is currently used by over 90 million teachers and students worldwide as estimated by Microsoft. Our trainers are professionally trained in India and abroad and technically qualified to impart training to the teachers and educators on the above said subject.

This training will be of 6 days (5-6 hrs./day) fully based on practical. Completing the minimum required hours is compulsory. After the completion of the training the participants will receive a certificate from Edimpack USA mentioning that they have undergone training on Microsoft Office 365 under Digital Kshamta Program. The training is sure to be of great help to the Future Teachers and Educators.

### BENEFITS OF WORKSHOP

Powerful Tools for Students and Educators.  
Benefits to Educators are as follows:

- Office apps & services that allow you to organize, collaborate and engage students.
- Enables getting work done from the device of your choice.
- Works online and offline.

Office 365 offers the opportunity for users to make changes and updates to documents from anywhere, at any time. With Office 365's collaborative tools, projects will have more structure, allowing small groups to work on their projects at various times throughout the day.
